3. Agenda			
Topic	Discussion		
Feedback:	<ul style="list-style-type: none"> Schedule overview should display the week from where the selected date is found rather than the week starting for the selected date Flip the label for the search function(id or name with select employee) Look into the user interface a bit more, see what improvements can be added after testing. More user friendly Create the test plan Application has a higher priority than website Never scroll horizontally inside listboxes Save button is not necessarily needed Its good to create the UML diagrams to have a better communication when presenting the improved functionalities
