Feedback:	- Clearly define the category labels so that when editing the data of a product or employee the section "pops-out more"(example of label : Login information) - FTE(full time employment) in average shifts per employee - Do not make changes, we are going the right direction, focus on polishing - See how to enrich the user interface - Pulling the data from DB, decide if we want it to be manual or automatic - Changes in the app need to be updated in the UML diagrams
